

KEY FEATURES IN THE LATEST RELEASE

INTRODUCING My AOEU

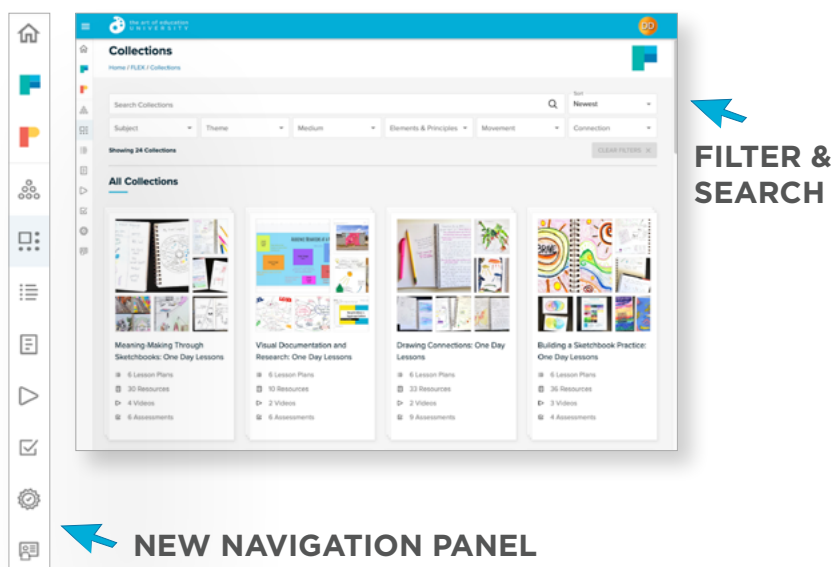

All your go-to products now live together on the My AOEU homepage. Access FLEX and our other offerings by clicking the Login button on our website.

Faster Load Times + New Navigation

Our website got a speed boost—curriculum resources load faster, so you can filter content and find what you need in less time.

Navigation is now anchored to the left of the screen, making it easier to access on desktop and mobile. Plus, you can switch between FLEX and PRO in a single click.

Update Your State Standard in FLEX

A new button on the left navigation panel makes it easier to switch between state and national art standards.

The screenshot shows the 'My Standards' page in the FLEX system. On the left, a navigation panel contains a button labeled 'FILTER BY STANDARD' with a blue arrow pointing to the 'Filter By Standard' section. This section has two dropdown menus: 'Artistic Process' and 'Anchor Standard'. Below these, it says 'Showing 48 Results'. The main area displays 'All Results' with a grid of resource cards. A dropdown menu is open on the right, showing a list of states and 'NCAS' at the top. A blue arrow labeled 'SET STANDARD' points to this dropdown menu. The resource cards include 'A Career in the Arts', 'Art Careers and Community Impact', 'Art Etiquette Zine', 'Art Room Brain Dump', and 'Inspiration v. Appropriation'.
